

We've put together some suggestions for hosting an

FJV COMMUNITY NIGHT in your area:

- Invite people to gather at your home and ask them to bring something to share.
- Invite folks over for Game Night.
- Pick a local pub and invite people to join you for a drink and some appetizers.
- Pick a local park, bring a Frisbee and invite people to join you for a game and some community.
- Choose a topic of discussion. Here are some suggestions: consumerism, ecological awareness, energy resources, how to continue to live the four values, share about your JV experience, staying connected to friends and family while living in a world full of technology.
- Let JVC Northwest support you! We're happy to help you invite people and create excitement for your Community Night—we're excited about it too!
